This address list is provided with the Ricability Mobility Guides: Car controls, Choosing a car, Getting in and out of a car, Getting a wheelchair into a car and Wheelchair accessible vehicles (see page 42). We provide the names and contact details of all suppliers, converters and adaptation installers operating in the UK.

The information contained in this guide is correct at the time of going to print (June 2012). It will be reviewed every year. See our website for any changes since printing. New suppliers should contact us for inclusion in future editions.

Ricability is a charity that researches and publishes independent information on products and services for older and disabled people.

## Wheelchair accessible vehicle converters

### TRADE ASSOCIATION

The Wheelchair Accessible Vehicle Converters' Association (WAVCA) is the trade association for companies who manufacture and sell vehicles converted to be wheelchair accessible.

WAVCA aims to improve the quality and safety of wheelchair carrying vehicles and lobbies for legislation for wheelchair accessible vehicles.

WAVCA and BSI have recently introduced a standard for wheelchair accessible vehicles, PAS 2012, which offers guidance on design and build specification for wheelchair accessible vehicles.

#### Members must

- have been trading for at least 2 years
- offer at least 3 year warranty on their conversions
- have passed safety tests on wheelchair restraints and passenger seat-belts, and on rear seating and seat belts
- be able to demonstrate a commitment to customer service

## Mobility centres

Your first stop is likely to be a Mobility Centre – for telephone advice or for an assessment of your needs, for example.

There are 16 Mobility Centres in the UK. They give practical and independent advice and assessment to disabled drivers and passengers. They will assess your ability to drive, advise you about vehicles that might suit you and about any adaptations you may need. They are well informed on motoring and disability issues generally. Talk to them about any mobility problems you have. Each centre has expert and friendly staff who are likely to have met and solved similar problems before. They are non-commercial and impartial.

An assessment for a driver referring themselves will cost from £50 to £130 (depending on the centre). In Scotland assessment is free if referred by a GP. Costs for assessment as a passenger are lower – generally around £20–£50. Motability customers may qualify for a free assessment under the Managed Adaptation Programme.

Mobility Centres are accredited by the Forum of Mobility Centres and have certain minimum standards. For more information on the centres contact:
